About 2 weeks ago, my father shared the over 10 pounds fish he got via Wechat video. Also, during our virtual conversation, I advised him to donate his big fish to a local nursing home, which he did. On the same evening, when my kids were home, I called my father again through Wechat video. My father shared his fish story with his grandchildren in USA and of course everyone thinks my father did a great job and is proud of him. My father felt so good for himself.

All my family members (close to 100 people) use WeChat group to share our life.

All my family will get together on WeChat video every week and have wonderful time together

As a retiree, WeChat helps me to obtain a lot information in healthcare, fitting, treatments, etc.

Before I had Wechat, it was so inconvenient to call my family and get information on timely manner. In December 2008 just several days before Christmas, my father was in a car accident and admitted into the hospital. My family attempted to call me but could not get through. They sent me email, but I was busy working and doing Christmas stuff, didn't check emails for several days. By the time when I checked email and found out what had happened, my father already passed away. I didn't have chance to go home to be at his side when he died. That was the one thing I could never make up for. Two weeks ago, my sister called me and told me that my mom fell and broke her hip. Initially I was trying to go home, but found out I couldn't due to COVID and the tension between the two countries. Thanks to Wechat! I was able to consult the doctors in China, contacted my friends in China (they are all healthcare professionals), arranged her hospitalization and her surgery. Now she had her hip replaced and went back home walking again. I would not be able to do all these things without Wechat! With Wechat, I feel no distance with my family and friends in China. I video chat with my mom everyday when she was in the hospital, talked with the doctors via Wechat. I am so thankful we have Wechat! My mom is 86 this year. I don't want to lose her without being at her side! Wechat means so much to me and my family!

Before I moved here, I voice or video talked with my husband (then boyfriend) on WeChat everyday.

Both I and my wife talk to our moms in China. My wife talk to her mom who is 93 everyday. Cannot imagine that WeChat is unavailable.

By using WeChat, my senior relatives, like my uncle, could call me from China. Otherwise no way.

Early this year, when COVID-19 pandemic broke out in China, I saw lots of terrible stories about the pneumonia (it was called unknown infectious pneumonia at that time) from WeChat. A friend from Wuhan told me through WeChat that the pneumonia was very contagious, and warned us to be careful. This made me proactive in protecting myself, my family, and my community in the US. We also knew through WeChat that Personal Protection Equipment (PPE) was crucial in protecting the front-line workers. The Chinese Americans all over the US started to buy PPEs from China and donated to US hospitals, senior centers, police stations, etc. Chinese Americans helped to save lives in the US because of WeChat.

From wechat we knew our medical school classmate, who was in Wuhan Center hospital (same as Dr. Li Wenliang) during January this year, contracted COVID 19 when treated patents. After 2 months battle with the disease, he passed away unfortunately. That is how we knew the virus was so dangerous, and let us take serious precautions during the pandemic in the world.

From WeChat, I have reconnected with a group of elementary school classmates who now spread out over the world. We offer support to each other. Many years ago, in an incident over certain plants with my next door neighbor, a classmate whose job related to road building told me that my plants shouldn't damage my neighbor's driveway. Another classmate who is a lawyer gave me much suggestion. Finally I won in that incident. WeChat played a vital part to reduce my stress & feeling of helplessness.

Help a family in china to look for their missing son who studied in our area.

help me to save my sister's life

I am an adoptive parent who is using wechat to not only try and find my daughter's Chinese birth parents, but also to help other Chinese adoptees spread their search information. We keep in touch with friends and volunteers via wechat, and without it, we wouldn't have been able to help reunite all of the families we have thus far. Wechat is an important tool to bridge communication between Western countries and China.

I am an American adoptive parent to a son from the PRC. I mainly use WeChat to engage in his birth parent search in China. My WeChat ID is on all of his online and physical search posters as this is most convenient for reaching Chinese people in his province. However, as my own Chinese language skills have gotten better and I've met more people, I now use it on a daily basis to send written and voice messages to friends in China. It is my bridge to my son's home country. We have spent 5 years trying to help him find his birth family in China. He almost died as a newborn, and we want his Chinese family to know that he survived and is healthy & living in the US. If WeChat is banned, I fear it will bring an end to our search and an end to my friendships with Chinese people, so I am extremely concerned. My son longs to learn about his birth family and his origins.

I call my parents, relatives and friends almost every day. All these calls are free. I love it so much.

I can see my mother again on WeChat after 2 years .

I can talk with my 90 year old father (I n China) weekly

I can use the WeChat groups across the globe... to carry daily conversations. I avoid using WeChat disseminating sensitive/confidential info.

I can video call my parents who are more than 90 years old, and free. Ever time we see each other on video, my parents and I have great conversation. We are so happy and expect next time soon. Only WeChat made it's happen.

I can video conference with my aging parents who live in a nursing home in China. They can talk to me whenever they want to in a Chinese language enviornment.

I did video-calls with elders in my family in China who are in their 70s and 80s . It is remarkable because they are not technology savy by any stretch.

I dislike wechat for banning articles and preventing people from speaking their mind.

I established connection with most my old friends and classmates using Wechat

I found many of my old friends and classmates who I grew up with, attended elementary and high school together, through WeChat.

I had a childhood friend whom I lost contact for twenty some years and I missed her a lot. Via wechat we finally contacted each other. And I met her during one of my trips back to China. It turned out that she was fighting with late stage cancer. We were very happy to see each other and via wechat I was able to encourage her in her fighting with the cancer. She passed away one year later. I am grateful to wechat so I could accompany her during that time.

I had to use it to pay for certain food items in China...

I have a large family of relatives in China. We have a big wechat group of over 30 people who often communicate and share news about each other. There is no other way for me to keep in touch w them other than wechat.

I have used Wechat to enjoy information, entertainment, discussions, and communication. Like the feeling of most other friends in the US, Wechat has been very important part of our daily life.

I hope China will allow people to choose from alternatives.

I learned via WeChat group about Dr. Li Wenliang before he died and the seriousness of Coronavirus at very early stage from Christian doctors who worked right in Wuhan where the virus outbreak took place. Via WeChat, Chinese Christians in the area were receiving supports and donations from brothers and sisters outside the country, and delivered masks with Gospel to local citizens.

Wechat is the only Apps CCP allows it's citizens to communicate live with outside world. We are already censored by CCP, all my friends and families never use word Xi (or Xi Jinping) in fear of being blocked. And it happened to my friends. If we ban WeChat, I think no one would be happier than Xi Jinping. Plus as US citizen, we are not allowed to open WeChat Pay account.

In feb 2018, on WeChat I got information of FBI Director Wray testified on a Senate Committee spreading disinformation about China and Chinese Americans. Within a couple of days I led the effort writing emails to the former speaker of house, majority/minority leaders and whips complaining the matter.

It allows me to get hold of a friend or family member whenever I need and enables me to make immediate contact to friends' friends when necessary

It has become a part of life!

It really was the main and immediate source of Covid-19 news from China, best trustworthy and fast than any news media! It's because the information was from a collective families and friends of American residents. These families and friends work in hospitals or medical related, banned to say anything in China, but would share with caring families and close friends! Other than connecting to my families and college friends, this is the very best use case of WeChat yet! It has been the only platform for me and my college friends to exchange views on China and America, a way for us to understand each other and to effluence each other.

It's my whole business and social ecology

My dad is 89 years old. We have bought him PC's, laptops, and tablets in hope that he can communicate with us via email or other apps. None of those attempts worked until I taught him to use WeChat on his iPhone. Then he taught my aunt and uncle how to use it.

I am in the U.S., my dad and my bother are in Canada, my uncle and aunt are in China. Thanks to WeChat, we feel much closer then we are physically apart. Since my dad, my uncle, and my aunt are in their old age, they may never travel and get to see my dad in person again. WeChat is essential to keep them connected. WeChat is also essential for me to communicate with them on a daily basis. If WeChat is banned in the U.S., it will be impossible for my family overseas to connect with me easily. I thank UCA and the lawyers for all you do to keep WeChat available for the Chinese community in the U.S.

My family still live in China. I have to use wechat to communicate with my husband and my son daily.

My father got stroke in Canada and now moved back to China for treatment. The best way for us to communicate with him is WeChat. He does not know any other chat software (yes, China prohibited most of other communication APPs), and this APP allow us and him to leave messages, share photo of his food/therapy, doctor's treatment records, and calls. In our situation, this is the only way to communicate with my dad in sickness. This is not related to any political nor propaganda, it is all about family.

My father is old and ailing whom I haven't seen for over a year. Due to the Pandemic, I can't go back anytime soon. WeChat is the only tool for us to see each other via the video call and stay close. We now have to talk about end of life arrangement and can't imagine not having WeChat. We also work with many business colleagues and customers in China via WeChat. Without it, work will be extremely difficult and I will suffer loss of revenue.

Afterward, I quickly contact the Milwaukee company and talk to the customer service department. Within 1 hour I got the quote and WeChat it back to my friend. Hopefully I get a positive answer to go for next phase, but the Milwaukee made products.

I did the same thing using WeChat to sell North Carolina made valves to China from 2014-1H2020. Closed it because I lost too much of money for too expensive valves due to tariff, up from 8.6% to 48.8%, imposed buy China to retaliated Trump's trade war with China.

My mother is 85. Through WeChat, I can keep in touch with her all the times.

My mother lives in a senior home in China. WeChat is the only way I can get photos, videos of her from her caretakers and nurses. They report to me right away if my mom needs medical care or hospitalization, which happens a lot at her advanced age. There is no way I can ask these people who are not related to me to move to a different platform, such as Signal, if WeChat is banned in the US.

My posts have been blocked or deleted on WeChat.

My sister's husband had colon cancer diagnosis March of 2019. She sent to me all the medical document on his diagnosis, asking me to research on targeted treatment here in US and how to get treatment in US if his first line treatment fails. Wechat has been very instrumental when there's urge need.

My wife first learned about COVID-19 via wechat, and we were able to notify our family in China before they heard the news. We also heard how bad Wu Han's situation was from a series "Fang Fang diary" on wechat.

My college Classmates also uses Wechat to keep in touch. One of them post daily Chinese news In our chat group. They also sometime ask me about things happening in the US.

I think WeChat is essential for us to connect with family and friends in China. It's also necessary for increase understanding between the two cultures.

On Wechat I connected to old friends that I missed but lost contact for more than 20 years.

One of my best friends' husband was very ill in China, I was able to talk to her using WeChat, and encouraging her during the difficult time she was having.

One thing that has impressed me most about WeChat is during a great storm in Beijing, probably in the summer of 2012, a lot of people who got stuck in the flood couldn't get through 110 emergency calls, but could send out WeChat messages for help, and a lot of rescue teams used WeChat to locate and rescue people. I didn't use WeChat then, but it's left me a very deep and favorable impression. By providing instant communication, it saves people's lives.

One year ago my father hurt his knee, I could get this information immediately from my relatives through wechat, and flew back to China to take care of him.

Only use WeChat to chat with parents in China. Otherwise stay away from it.

Received family information from Shanghai.

Regular communications with friends and family

Saying good morning to my beloved family members in China every single day with a selfie of my wife and me. This has become our habit for years. Even if WeChat is not perfect, it is the lifeline for us to stay in touch with our families in China, especially during the COVID-19 pandemic. We should have a personal choice of whether we use WeChat and how we use it; the government should not take away our freedom of speech and our freedom of choice.

Share a performance or composition with music friends and teachers in China.

share community educational information

Share community events and information

share my kids video with my family back in China

Talking to my aging parents on Wechat video makes all of us very happy. I am very pleased it's made free for common people like us.

the best way to communicate with my brother who lives in Beijing. No cost and more convenient than email or phone. Especially consider the time zone difference.

The first twenty years after I arrived to the US I used usual phone calls to communicate with my family. Ever since I installed WeChat I have been video chatting with my family members in China every week, they all only use WeChat. We can see each other while we chat, and this is especially great for my mom and dad, who are both in their 80's. If WeChat is banned I cannot imagine how deeply my parents and other family members will be disappointed.

The story that I would like to share is that I joined some wechat groups. I can share thought and information with others. One of the wechat group is my high school classmate group. Most of them are in China. The rest of us are all over the world. We share different kinds of information. I feel this way helps the people in China understand the outside world better and people outside China understand China better. We need this kind of mutual understanding and learning from each other for the better of the world. The other things I like a lot is wechat video chat function. My parents are old and in China. They do not know modern technology too well. Since they use wechat, I can chat very conveniently through wechat. If wechat is banned. They do have other technology to video chat with me.

This is the First app I use when I open my eyes early in the morning

This is the only tool my mom knows how to use and I video call her every day. She is in 80s and live in China. We used to travel to China to visit her every year, With this pandemic, that's the only way we can "see" each other and she can "see" my son, her grandson.

this is the only way I can get in touch with my mom who doesn't know how to make international calls or use computer.

Though I have to correspond with my Chinese (university / education) contacts frequently, I had resisted using WeChat for many years. But once I started using it, I depend on it so much. Email would work, but WeChat is way more convenient and efficient!

Through WeChat I was able to reconnect with my high school friends after 20 years of losing contact.

Through WeChat video call, I can see my mom weekly. She can see my family too without being here. It is a great deal to our families.

Through WeChat, many of my former classmates at middle and high schools who never got a chance to meet after graduation 30+ years ago were able to meet virtually and happily!

Thru WeChat I found a lady with same last name from a city I spent when I was 3 yrs old

Two weeks ago, I read an interesting article on WeChat. About 40 minutes after my initial reading, I tried to forward the article to a group, only to find out that it was censored. The article reported a tragic domestic violence case. Censorship is WeChat's trademark.

Another story. The official account of one of my favorite authors on WeChat was locked up for whole three months. His crime? Maybe sarcasm in his literature analysis. Who knows? Redlines everywhere.

Use Wechat to find who have been separated for many years

Use wechat to pay my bills in Canada

We have been involving animal rescue in China since nineties. My late mother 芦迪 was the founder of 中国小动物保护协会 founded in late 1990s. Currently I am the vice chairwoman of the organization. We have had more a thousand rescued dogs and cats in Beijing alone. The org uses WeChat to connect to hundreds of volunteers and small rescue communities.

We have group to study Buddhism.

We use WeChat to organize Chinese community in our city, Palo Alto, CA

WeChat help my family and friend stay connected. It help me find my high school friends that I lost contact for many many years.

WeChat is a way of life for me, a way to connect to people from all over the places. I don't keep phone numbers even for some close friends. I may lose the contact information of friends and business if wechat is banned. I have numerous WeChat groups for community, business, stocks, investment, friends and families.

wechat is a way that CCP brain washing people. It should be banned.

Wechat is our only communication with 2 amazing caregivers that helped raise our adopted children from birth. It is crucial that wechat always be available so we can connect and share photos of our children growing up. It is a lifeline to help our children stay connected go their birth country. Please understand wechat is extremely important to my family!

WeChat let's me keep in touch with former students who now live in China.

Wechat my family every day

When I first arrived in the US in 1988, it cost me \$10 (1988 money) for the 1st minute and \$3 a minute afterwards. Now I can chat with my families and friends all over the world. Who is Trump administration to tell me that WeChat is not good for me?

When I led a group of American university students to travel and produce television programs in China, it's very convenient for my students to communicate with me and their families in US via WeChat at any moment.

When I traveled back to China for visiting my hospitalized father in May 2019, my flight got delayed and I was trapped in the connection airport. My brother, staying bedside whole night with my father, we-chatted me telling that I might have missed the last chance to talk to my father. I quickly made a selfie clip for blessing my father and sent it over to my brother via WeChat so that my brother could show it to my father when he was still awake. I feel deeply sad that I lost my beloved father eventually but I feel relieved that he was able to hear the voice and watch the face of his youngest son in the last minute of his life. I really appreciate WeChat to give us the opportunity to make this happen. In addition, my father has been a WeChat lover during his last couple years while fighting with the disease. He learned how to communicate with other friends using WeChat, learned reading articles with medical advices from the professionals in WeChat, and learned video-chatting with me via WeChat as well. WeChat builds an unseen bridge between oversea Chinese and their families in China.

When my son attended summer camp in China, I was able to connect with his counselor for daily communication. I received photos and videos, as well as updates on how my son was doing in the new environment. Wechat also allowed me to personally thank the camp staff for taking care of my son.

With wechat, I and my family know each other well despite far away

我与在国内的家人的视频聊天渠道

我与麻麻聊天

我们town华人微信群很活跃。美国疫情爆发初期，我收到了1月底给中国湖北订的400套杜邦防护服。原因是一月时缺货，到3月才到手。那时美国开始爆发疫情，医生们在医院裸奔，防疫物资极度缺乏。当时我在我们镇上的微信群里问大家如何处理，群里大家商议说应该树立华人负责任的形象，大家一起捐钱买下这批防护服送镇上的EMS。然后我打电话给EMS，确认了我手上的型号符合医用级别要求，我们就开始捐款。我发消息的当天，大家在微信群里接长龙捐了近两万美元，消息一发出，几乎每个华人家庭都捐了款。当天我就打电话给EMS，当天EMS就来人开了皮卡车把防护服拉走了。也是通过微信，大家找到纽约私人手中的医用口罩货源，用捐款余款买了一大批口罩，捐给了本地三家大的医院和镇上警察局。后来还有许多华人把家里备着的N95拿出来捐给医院及警察局。我们镇上捐款的消息在大家的微信朋友圈里扩散，当天远处warren的华人群也开始捐款，第二天邻近的princeton, west windsor, plainsboro等各个town的华人群听说了都纷纷捐款捐物，送医院送警察局。我在新泽西somerset county, Montgomery 镇。真人真事。

我们和孩子可以和在中国的父母实时通信联系和视频，每次他们看到孙子都很高兴。

我们团契弟兄姐妹（我们在美国），曾经在微信里为一个教会弟兄的父亲（在中国）临终前决志信主祷告，最后他父亲决志信主后安然病逝！他终于得救了！这是我们把福音传给中国同胞的非常方便、好用的工具！

我可以用微信和散落世界各地的同学朋友保持便捷的联系。

我在我奶奶弥留之际，使用微信通知我的亲戚们，并且让我们所有人通过微信实时视频功能陪我奶奶走完人生的最后路程！

我在美国，儿子在中国的时候，他发烧了，我妈妈就需要马上联系我，只有微信可以保证我们的实时沟通，去告诉他要怎么应对孩子发烧和生病的情况，让我妈妈放心。

我想回国，由于现在回国政策今常在变，需要核酸检测，还需要上传大使馆，怎么上传我在微信交流群就可以得到解决。

我成立了音乐圈，朋友们在圈里互相交流

我所居住的城市 hacednda HTS., CA 在微信上在微信上建立了一个COVID-19互助群，相互在COVID-19期间相互帮助。我在群里，可以第一时间了解加州政府的很多最新规定，特别是关于COVID-19的新规定。

我是做社区癌症教育和预防的，经常会利用微信发布我们在社区的防癌宣传及义诊公益活动等，广大华人朋友从中收益不少！

我是家中长女，兄弟也在外工作，家中只有年迈的父母，这让我很牵挂。虽然可以经常打电话，但是微信视频却让我们彼此可以互相对望，抹去了万里距离带来的伤感与不安，更让我可以随时细心观察父母的健康状况。

我有位中学非常要好的同学，我俩就如影子一般。我三十年前出国后，断断续续和她先有书信往来，后来大家忙碌而失联。四年前一晚上，我先生叫醒我，说你好友敏找到了。原来在国内的她很想念我，向北美同学会我大学校友会的几个群问讯找人，结果有人知道我先生，就这样找到我。当晚和她通话，我们哭了很久又笑。当晚我又和高中同学联上了。过了一个多月，我全家去深圳旅游，见到她全家。回想起点滴，真的感谢微信

我有许多国内的农村朋友们，他们不可能更换使用其他平台与我交流。他们的学习其他平台的能力非常有限。包括我年迈的老人朋友们。

我母亲是路易体失智症 (LBD)，经常有非常强烈的幻觉。八月份有一天，她声称我头被大门挤扁极其危险，又哭又闹。我妹妹及时用微信视频电话联系到我，她很快意识到我就在眼前给她说话，迅速平静下来。目前我没有类似的容易使用的，中美双方都可以使用的替代方案。

我每天早晚都和父母通过微信互道平安

我爸爸上两周进了ICU，因为肺炎期间妈妈不能进病房看爸爸并更新他的情况给远在美国的我。幸好有微信，医院里的护工可以通过微信视频每天给我们在美国的家人更新爸爸的病情。这是其他美国社交软件不可能做到的，家人/护工不懂英文。微信让我们实时知道爸爸的病情，当他苏醒后第一时间看到美国的女儿和孙子们，对他病情的恢复无比的重要！

我爸爸妈妈妹妹都在国内。我爸今年76岁，患糖尿病31年，最近我爸由于烫伤引发全身性炎症反应入院，我妈和妹妹每天在微信里跟我更新治疗进展，发照片，让我放心。如果没有微信，会非常麻烦，我需要每天在他们方便的时候打电话回去，如果我爸病危，她们需要打电话过来，都需要额外的费用，而且不一定能接到电话。住院需要很多钱，本来我可以通过微信支付给他们钱，现在也不行啦，要用别的方法，又增加了成本。

我的大学是生物学专业，年初班级群里关于新冠的讨论和专攻病毒学同学的讲解是我获得新冠准确知识的最好最快的途径。美国电视和中文媒体有时报道会让人觉得是不是有宣传成分在内、不可信、能信多少。而大学群里的讨论对我们这样的普通人及时保护家人、朋友同事起了关键作用。2.

去年我的小孩幼儿园突然停办，需要马上找到第二天就能送的可靠的Day Care center,

我着急谷歌了很多消息打了许多电话，无法找到信任的地方解决燃眉之急。朋友拉我进了本地的妈妈群，一问百答，华人妈妈在这里分享信息和感受，是很有效率的互助平台，两个小时就找到了可以托付她的有质量有口碑的短期day care。3.

新冠期间小孩在家没事干，多亏微信平台 and 各位微信好友的分享给她选择到学中文、学画画的教育课程。对微信的使用渗透到在美华人生活的一点点当中，给我们带来方便，带来两种语言和文化的链接。是科技发展提高人类生活质量的最好的一个例子。没有微信不是无法生活，但是会增加很多困难，更重要的是会让我有权利被剥夺的屈辱感。

我的母亲在中国生活，由于不能自理，由在国内的妹妹照料，通过微信，可以和妈妈保持如常沟通见面，了解她的生活状态，在我无法亲自在母亲身边照料她。看到她被家人细心照顾，让我非常安心，不用焦虑。如果没有微信，我将会非常难过内疚不安。所以禁止使用微信是不人道的，将政治利益强加于人的生活需求是我们个体生存空间的侵害。

我的父亲重病了，可惜我当时在美国，即便最快速度回到中国，他还是去世了。没能见上他最后一面。我在我的微信朋友清单里一直保留了爸爸以前的头像和ID，因为经常用微信，每次看见爸爸的头像，就会想起他，就好像他还没有去世，还和我有连接。

我的钱包被封了，里面的钱也被扣了。我的微信是与国内银行账户捆绑的，银行账户是我个人真实姓名。现在微信要我上传护照和拍照，凭什么？这不是抢钱吗？这是在美国，微信必须遵守美国法律，不能随便扣我钱，封我账户。把中国的法律用在美国，审查内容，禁封群和个人账户。我的校友群都被封了十几次了。如果微信不改变现在的做法，我支持美国政府对微信所做的措施。

提取公积金、远程办理医疗保险事务、订机票

2) 通过在微信帐号上转发、分享美国文学和音乐作品，分享美国教会、学校的思想和信息，向中国亲朋介绍美国文化，增进他们对美国的了解，故事太长，讲不完。

方便与朋友联系

最近几年我在微信群结交了好几位特别知心的好友。我的朋友圈和别人的朋友圈是我们之间互动的一个重要的平台。

有一次我第一次听到美国的重要新闻是我的家人通过微信电话告知的。

有趣的事情可以马上分享给朋友。

梁彼得案件中用微信的全国串联集会抗议活动，通过微信群组和接龙进行。第一次感受到微信传播信息的效率。

每个周末我都和我在中国居住的年迈母亲微信视频聊天，安慰她。年初中国新冠疫情居家令期间，是我通过和她微信视频聊天给了她精神力量，帮助她和我父亲度过了最困难时期，当时她都觉得自己要不行了.....

每天吃晚饭的时候就是我的宝宝和他们远在中国的外公外婆交流的时间，他们一直保持联系，是我们重要的情感支持

每天和家人朋友们通话。

没故事，支持美国禁微信。

父亲病重，因为covid不能回国，我时靠微信和父亲见最后一面的。

用微信打电话给中国的家人，不用花钱

疫情初期，公司Asian Professional

Forum中的华人成员使用微信组织捐款。最终为在一线的医护人员筹得\$7,000+。社区华人也在疫情初期积极联系国内医护用具来源，使用微信群组织大家向当地医院捐物。

看小说

老父患有老年失忆症，以前很爱唱歌的他变得沉默寡言，通过微信我们一起唱老父还记得的一些老歌曲，老父亲情绪立马明显改善，话也多了些。

被邪恶的微信封过三次！支持美国政府禁止微信使用！

这次我的父亲住院了、医院也可以及时联系我商量给我父亲的治疗方案、微信是我们平常老百姓能及时沟通交流的一个平台、我非常感恩有这样的一个平台让我们海外华人随时和亲人朋友沟通。

通过微信，了解到中国需要资助的贫困学生，很快能将资助款转给接受资助的人
